

OhioRISE for HealthVine Partners

OhioRISE is a specialized Medicaid managed care program for children and youth with complex behavioral health (mental health and/or substance use disorder) and multisystem needs. Aetna Better Health of Ohio (Aetna) is the state-wide managed care partner for the program.

The OhioRISE Program uses a “system of care” approach to provide services and supports to youth through a coordinated network in their community. This helps improve overall level of functioning of the member in various settings, such as at home, in school, in the community, and throughout life.

Who qualifies for Care Coordination from HealthVine through OhioRISE?

Youth aged 0 to 20 who are eligible for Ohio Medicaid, are not enrolled in a MyCare Ohio plan, and require significant behavioral health support, measured using the Ohio Child and Adolescent Needs and Strengths (CANS) assessment, are eligible for OhioRISE.

HealthVine is the Care Management Entity selected to provide care coordination for youth in Eastern Hamilton, Clermont, Brown, Adams, Scioto and Lawrence counties. Other Care Management Entities are covering other counties across the state.
